Dear Cal,

Thanks for your letter.

The Warren Commission was appointed ~~September~~ November 27, 1963.

Its report, in page proof, was given to LBJ and to the press, with an embarge of three days, September 24, 1964. Bound printed copies were available at the Government Printing Office 9/27, the official date of release.

You can check the date of the Commission's appointment in their Report, which you have.

I think Charley's title is better but you can combine it with the one you started with in a different subtitle: JFK-Exposing the Cover-Up: A Teen-Ager's View

Please tell your mother the plant continues to be beautiful and that so far all the blooms remain.

and that we do appreciate it.

Best wishes,

Harold Weisberg
